

Vaulted tubes with flat base and corrugated inner wall in the upper and side generatrices. Made in rigid PVC.

Uses

Suitable for buried drains in buildings and civil engineering:

- Paths, roads and motorways.
- Construc

Characteristics

Colours	Azul	Impact resistance	10 J A 0°C
Dimensions	Según UNE 53994 Tabla 6	Ring stiffness	SN2 para 160 y SN4 para 110
Packing	Barras	Perforated surface	>20 cm²/m
Standard	UNE 53994	Types	A1 ND el de 160 y A1 ED el de 110
Perforations	DP (semiperforado)	Connection	Manguitos

Technical data

Díámetro nominal	Díámetro exterior mm	Altura mm
110	110 +/- 2,5	110 +/- 2,5
160	160 +/- 2,5	160 +/- 2,5
