

Double layer tubes, being rigid corrugated the inner layer and flexible the outer. Manufactured with halogen-free, fireproof polyolefins.

Uses

Suitable for flush wall and ceiling mounting to protect the electric conductors.

Characteristics

Fire behaviour	Non flame propagation	Compressive strength	320N
Dimensions	UNE-EN 60423	Bending resistance	Pliable
Packing	100 m. rolls for 16 and 20; 75 m. for 25; 50 m. for 32; and 25 m. For 40 and 50	Impact resistance	2J
Standard	UNE-EN 61386-22	Maximum temperature	90°C
Electrical properties	Insulating	Minimum temperature	-5°C

Technical data

Diámetro nominal	Diámetro exterior aproximado mm	Diámetro interior aproximado mm
16	16	10.7
20	20	14.1
25	25	18.3
32	32	25.3
40	40	31.2
50	50	39.6
