

**Double layer tubes, being rigid corrugated the inner layer and flexible the outer.
Manufactured with halogen-free, fireproof polyolefins.**

Uses

Suitable for flush wall and ceiling mounting to protect the electric conductors.

Characteristics

Fire behaviour	 Non flame propagation
Dimensions	 UNE-EN 60423
Packing	 100 m. rolls for 16 and 20; 75 m. for 25; 50 m. for 32; and 25 m. For 40 and 50
Standard	 UNE-EN 61386-22
Electrical properties	 Insulating
Compressive strength	 320N
Bending resistance	 Pliable
Impact resistance	 2J
Maximum temperature	 90°C
Minimum temperature	 -5°C

Technical data

Diámetro nominal	Diámetro exterior aproximado mm	Diámetro interior aproximado mm
16	16	10.7
20	20	14.1
25	25	18.3
32	32	25.3
40	40	31.2
50	50	39.6
