

LH

**Halogen-free flame-retardant polyolefin corrugated tubes pre-wired with high-security halogen-free cables.**

## Uses

Pre-wired tube for the connection of analog and conventional fire detection and alarm systems in public places.

Short wiring pitch (twisted 25 turns per meter) to reduce external interference.

## Characteristics

Fire behaviour	<b>Non flame propagation</b>	Bending resistance	<b>Pliable/ Transversely elastic</b>
Dimensions	<b>UNE-EN 60423</b>	Impact resistance	<b>Middle: 2J</b>
Standard	<b>UNE-EN 61386-22</b>	Maximum temperature	<b>90°C</b>
Electrical properties	<b>Insulating</b>	Minimum temperature	<b>-5°C</b>
Compressive strength	<b>Middle: 750N</b>	Cable type	<b>SOZ1-K</b>
