

Corrugated tubes in halogen-free, fireproof polyolefins.

Uses Suitable for flush wall and ceiling mounting to protect the electric conductors. Specially recommended where a low emission of smoke and corrosive gases is needed

Characteristics	Colours	Grey
	Fire behaviour	Non flame propagation
	Dimensions	UNE-EN 60423
	Packing	100 m. rolls for 16 and 20; 75 m. for 25; 50 m. for 32; and 25 m. for 40 and 50
	Standard	UNE-EN 61386-22
	Electrical properties	Insulating
	Compressive strength	320N
	Bending resistance	Pliable/ Transversely elastic
	Impact resistance	1J
	Maximum temperature	90°C
	Minimum temperature	-5°C

Technical data

Diámetro nominal	Diámetro exterior mm	Tolerancias	Diámetro interior aproximado mm
16	16	+0/-0,3	10.7
20	20	+0/-0,3	14.1
25	25	+0/-0,4	18.3
32	32	+0/-0,4	25.3
40	40	+0/-0,4	31.2
50	50	+0/-0,5	39.6
