

Double layer tubes with the inner layer in corrugated rigid PVC and the outer in flexible PVC.

Uses

Suitable for flush wall and ceiling mounting to protect the electric conductors.

Characteristics

Fire behaviour	 Non flame propagation
Dimensions	 UNE-EN 60423
Packing	 100 m. rolls for 16 and 20; 75 m. for 25; 50 m. For 32; and 25 m. For 40, 50 and 63
Standard	 UNE-EN 61386-22
Electrical properties	 Insulating
Compressive strength	 320N
Bending resistance	 Pliable
Impact resistance	 2J
Maximum temperature	 60°C
Minimum temperature	 -5°C

Technical data

Diámetro nominal	Diámetro exterior aproximado mm	Diámetro interior aproximado mm
16	16	10.7
20	20	14.1
25	25	18.3
32	32	25.3
40	40	31.2
50	50	39.6
63	63	52.9
