

It is a pre-wired pipeline that comprises a rectangular pipe with three independent cells. Each of them houses a single core cable ECO-REVI H07Z1-K (HS). Both the cables and the pipe are halogen-free and meet the high-security conditions.

APPL

Uses

Adecuado para el montaje superficial y semiempotrado (cubierto por una pequeña capa de yeso) en lugares donde no es posible la instalación bajo tubo.

Characteristics

Colours	 Conduct: White Cable: Brown, yellow-green and blue
Fire behaviour	 Non flame propagation
Packing	 Rollos de 50m
Standard	 Conduct: UNE-EN 61386-2-2 Cable: UNE-EN 211002
Electrical properties	 Insulating
Compressive strength	 Strong: 1250N (in working position)
Bending resistance	 Pliable
Impact resistance	 Low: 2J
Maximum temperature	 90°C
