

It is a pre-wired pipeline that comprises a rectangular pipe with three independent cells. Each of them houses a single core cable ECO-REVI H07Z1-K (HS). Both the cables and the pipe are halogen-free and meet the high-security conditions.

APPL

Uses

Adecuado para el montaje superficial y semiempotrado (cubierto por una pequeña capa de yeso) en lugares donde no es posible la instalación bajo tubo.

Characteristics

Colours	Conduct: White Cable: Brown, yellow-green and blue	Compressive strength	Strong: 1250N (in working position)
Fire behaviour	Non flame propagation	Bending resistance	Pliable
Packing	Rollos de 50m	Impact resistance	Low: 2J
Standard	Conduct: UNE-EN 61386-2-2 Cable: UNE-EN 211002	Maximum temperature	90°C
Electrical properties	Insulating
