

Suppliers' information

1.- OBJECTIVE OF THIS DOCUMENT

The objective of this document is to facilitate that our suppliers acquire a knowledge of our expectations about the products or services that they provide us with.

The suppliers are one of the stakeholders of Grupo Revi and it is to be assumed that a large part of their interest is focused on continuing the commercial relationship and increasing the participation quota as much as possible. To achieve this, they must provide the maximum collaboration in order to achieve customer satisfaction.

In Revi we manufacture low voltage electrical cables, pipes for electrical installations, pipes for drainage and sanitation. The raw materials and services that we acquire are a fundamental part for the quality of our products and also for the efficiency of our processes.

A good relationship with our suppliers and collaboration to optimize the products we manufacture and the development of new ranges contributes to continuous improvement that will be beneficial for both parties.

2.- QUALITY

Revi Group suppliers must comply with all applicable legal and regulatory requirements.

Grupo Revi has a quality system in accordance with ISO 9001 certified by AENOR for each of its companies and therefore has implemented a supplier evaluation method that is based on the following aspects:

- Quality of the product purchased (compliance with specifications)
- Compliance with delivery terms.
- Documentation (quality certificates, specifications, TDS, etc.).

Based on all these aspects, all our suppliers will be classified, acquiring preferably the products of those that present a higher score.

We appreciate that our suppliers take into account what is indicated in this document in order to ensure a beneficial and reciprocal relationship in the future.
